

Starfish

bath sensor and water temperature monitor

- ❖ No more getting into hot water or continuously checking the bath water level
- ❖ Starfish will alert you when it's 'Bath Time'. The unit sends an audible alarm when the water reaches the base of the product
- ❖ Temperature readout available in both °C and °F
- ❖ Starfish can prevent accidental overflowing when distracted by the phone, TV or a knock at the door
- ❖ Attaches easily to the bath side using the powerful suction cup
- ❖ Unique LCD water temperature readout/monitor
- ❖ Fully tested and waterproof
- ❖ CE/F certified
