

Who's looking out for you?

Increasing hostility encountered in workplace environments places employees at risk and affects staff morale.

Protect your staff with Guardian, the ultimate in personal security systems.

Whatever your working environment, installing Guardian will give staff the assurance that someone is looking out for them, providing a safer and more confident workplace.

Guardian Trigger (black)

System Features

- Two wire installation – simple to install and expand
- “Assistance” call level – summons assistance in a non-critical situation
- “Attack” call level – in the event of an attack, alerts key staff members
- Dual technology triggers – utilises both Infra Red and Radio Technology providing reliable coverage in both internal and external areas
- “Call Follower” feature – tracks the signal transmitted from the trigger giving its latest location
- Full alphanumeric test – gives instantly readable incident location in full English text
- Caller ID – identifies staff member requiring assistance
- External coverage – outside areas such as car parks and gardens can be covered by Radio Receivers
- “Visit” logging feature – records a visit made at an exact location with date and time
- Durable, rugged trigger case – hard wearing, will withstand constant use
- System Integration – fully integrated with the Intercall 700 series Nursecall System
- Connection to pagers – output to tone and alphanumeric pagers
- Call logging – calls can be logged via printer or PC logging software
- Graphical floor plan – utilising bespoke PC software, illustrates location and call
- Fault monitoring – the system is continuously monitored to detect cable faults and unauthorised tamper
