

Scope Aerials

VERSATILE UHF PAGING SOLUTIONS

Although all systems are supplied as standard with a ¼ wave helical aerial, adequate for most applications. Occasionally you may require a higher performance aerial to boost the range and/or propagation of your system. Following are available specialist aerials.

LUHFDP

Lightweight Half wave dipole aerial for internal use, with 3m feeder.

FUHFDP

Half Wave Folded Dipole Aerial for external use. Requires appropriate feeder & clamp.

YAGI

3 Element Yagi Aerial for specialist applications. Requires feeder.
