

Product Instructions

SPTX-SCP Call Point Transmitter

Direct to Pager Call Point Transmitter

- Paging Message sent direct to Pager
- No control box required
- Compatible with GEO Range of Pagers
- PM2 Pressure mat
- PC1 and NP2 Nursecall Leads
- Approx. 30m Range

1. The unit is supplied with a surface mount back box.
2. Pressing the button generates a call to the pager.
3. Additional active triggers can be plugged into the auxiliary socket on the unit. The triggers must have a 6mm (¼") NO, mono jack plug. When used as a 'call point', fit the unit approx.. 1000mm from the floor with the Transmit LED upper most.
4. If PC-1 presscalls or BC-2 breathcalls are used ensure that the lead hangs down vertically from the call point – if the lead lies off near to the horizontal the trigger may not activate.
5. When used in conjunction with a PM2 pressure mat, fit the unit to the skirting board.

Power

PP3 9 volt Battery, low power monitoring

Dimensions
