

Smart Technology, Made to Care

Contact

Door / Window Sensor

The new Insight range combines modern aesthetic design with the high performance and robustness demanded by installers.

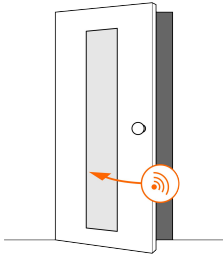

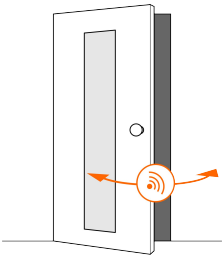

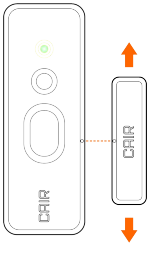

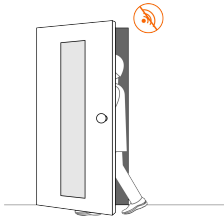

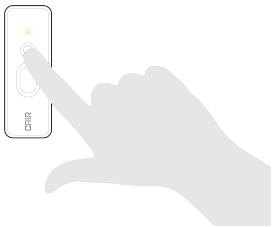

The Contact (Door and Window Contact) is an innovative door entry and exit solution. The sleek, wireless design comprising of a magnetic contact and detection device, has multiple operating modes that result in one device for all applications (see reverse). Contact is simple to configure and easy to use.

Features list

- Multiple configurable options
