Packing for shipment

The equipment containing cells or batteries must be packed in strong rigid packaging and must be secured against movement within the outer packaging to prevent accidental activation. The sender's name and return address must be clearly visible on the outer packaging.

Safety

Do not dismantle or alter the unit. Do not open the case. Indoor use in dry location only.

Declaration of Conformity:

Hereby, Cair (UK) declares that the radio equipment type, Cair Onyx is in compliance with Directive 2014/53/EU

Disposal

All electronic waste should be disposed of in accordance with the latest legislation. It must be disposed of within the electrical and electronic waste stream and not be disposed of in the normal waste stream. Recycling electrical waste products help to conserve natural resources and prevent adverse effects on the environment. Contact your supplier should you require more information.

Smart Technology, Made to Care

Onyx
Personal Alarm

The Onyx personal alarm launched in 2013 as the world's first jewellery inspired personal alarm.

Disguised as a piece of jewellery, the Onyx eliminates stigma and conceals vulnerability. The new and updated Onyx has enhanced features and is more durable and reliable than ever before.
